

The image is a detailed architectural rendering of a proposed parking interchange project in Catania. It features a 3D aerial perspective of the city's urban fabric. A large, irregularly shaped area is highlighted in a vibrant blue, representing the designated parking and interchange zone. Within and around this blue area, several circular icons are placed to indicate different types of mobility and services: a red 'M' for metro, two blue 'P' for parking, a blue bicycle icon for cycling, a green 'P' with a leaf for green parking, a green 'C' for car-sharing, and two yellow 'Bus' icons for bus stops. A white arrow points towards the red 'M' icon. The surrounding city is depicted in grayscale, showing various buildings, streets, and green spaces. The overall style is modern and illustrative, combining realistic architectural elements with conceptual mobility symbols.
