

An aerial photograph of a city street grid. A red dashed line is drawn across the image, starting from the top left and extending towards the bottom right, following a path that generally follows the main diagonal of the grid. The line starts near the intersection of 10th and 11th Avenues, passes through the center of the grid, and ends near the intersection of 10th and 11th Streets. The surrounding area is densely packed with buildings and streets, with a large circular park or plaza visible in the bottom right corner.
